1 Chapter at a Glance

- **Big questions:** How did society & state organise before 1000 CE? How did states spread? How did dharma & chakravarti samrāj make the subcontinent ONE political entity? How did social/administrative/occupational groups form?

- **Society** = social relationships among people sharing territory, culture & belonging — regulated by **customs, not laws** | **State** = organised political system based on **rules & laws**, with defined rights/duties & law-enforcing institutions ⚠️ favourite difference question

4 The Vedic Period — Beginnings

- Vedas = **earliest known corpus of Indian literature** (Harappan script still undeciphered) 🔥; existed **orally** for centuries before writing
- Ṛig Veda's date debated (5th millennium – 2nd millennium BCE); composed in NW **Sapta-Sindhu** — Indus + 5 tributaries + Sarasvatī; Ṛig Veda & Sindhu–Sarasvatī civilisation both knew **copper**
- Each Veda has 4 parts: **samhitā** (hymns) → **brāhmaṇa** (ritual prose) → **āraṇyaka** (forest philosophy) → **upaniṣhad** (Ātman & Brāhman) ⚠️ **Brāhman** (Universal Being) ≠ **Brāhmaṇas** (texts) ≠ **Brahmins** (varṇa)
- ~30 janas in Ṛig Veda; pañchajana = **Yadu, Turvaśha, Puru, Anu, Druhyu** 🔥; name **"Bharata"** first appears — from the Bharata jana ("India, that is Bharat"!)
- **Rājā** = primarily a clan chief (warfare leader, protector) — NOT an absolute territorial king

Veda	Key points
Ṛig Veda	Earliest; ~1,028 hymns (sūktas) — world's oldest surviving poetry; praise of deities + creation, birth, death

Yajur Veda	Performative aspects of yajñas; prose explanations
Sāma Veda	Hymns for musical recitation → foundation of the **7 svaras** of Indian music 📌
Atharva Veda	Hymns warding off evil, treating physical & mental ailments

Assembly	Nature	Function
Sabhā	Smaller, select elites	Primarily judicial
Samiti	Larger, broader population	Policy & political affairs
Vidhata	Popular gathering of the jana	Warfare & political discussions

5 Janapadas → Mahājanapadas 📌 the big transition

WHAT	Iron implements + fertile Gangetic plains → more settlements, paddy, PGW pottery; later glossy NBPW (middle Gangetic: Prayagraj → east Bihar)
WHY	Iron tools → agricultural surplus → control of land, produce & trade routes became valuable → complex administration needed
NEXT	c. 1000–600 BCE janapadas (territorial identity); 600 BCE–300 CE 16 mahājanapadas — 2 forms: rājyas (monarchies) & gaṇas/saṁghas (republics)
RESULT	**Magadha** (Bihar) most powerful — strategic location + fertile plains + strong rulers → expanded over neighbours
WHY IT MATTERS	Magadha → base of the **Mauryan Empire**; Vedic culture's centre shifted NW → Ganga plains

- Janapada = "where a jana first set its feet" — identity changed from **kinship → territory** 🔥
- **The 16:** Kamboja, Gandhāra, Matsya, Kuru, Shūrasena, Pañchāla, Vatsa, Kosala, Kāśhī, Malla, **Vajji (republic)**, **Magadha (most powerful)**, Anga, Chedi, Avanti, Aśhmaka 📌
- In the Deccan, Mauryas succeeded by **Satavāhanas** (2nd c BCE–3rd c CE, ~500 years)

Kingdom	Region	Emblem	Notes
Cholas	Lower Kaveri valley	🐯 Tiger	All three = "**Vendar of Tamilakam**" (crowned kings) in fertile rice regions; mentioned in Aśhokan inscriptions + Sangam literature. **Nedunjeral Adan** (Chera) won title *adhirāja*, conquered up to the Himalayas. ⚠️ Do NOT confuse with the later imperial Cholas (9th–11th c CE)!
Pandyas	Tamraparni & Vaigai valleys	🐟 Fish	
Cheras	Kerala (Keralaputras)	🏹 Bow	
Satiyaputras	Northern Tamil Nadu	none	

6 Duties & Ideals of the King

- From 6th c BCE rulers used titles: **rājā, mahārāja, samrāj** (regional traditions)
- **Kauṭilya's Arthaśhāstra:** "Only if a king is himself energetically active, do his officers follow him energetically" 📌 (quote)
- **Yajur Veda coronation oath:** judge strong & weak impartially, protect from calamities, do good to the people; **Śhānti Parva** (Mahābhārata) = guidance on ethical rule
- Duties: protect subjects & internal order; justice (abduction, robbery, theft, adultery); severe punishment — cow-killing, treachery, intoxicating liquor
- Kingship generally **hereditary BUT** refs to elected/expelled kings → royal authority NOT always absolute ⭐
- **Pan-Indian awareness 🔥:** Jambudvīpa, Bhāratavarṣha, aśhvamedha & Rājasūya yajñas, Prithivi, chakravarti-kśhetra; Aśhoka's edict — his *parākrama* changed spiritual life of Jambudvīpa; Arthaśhāstra: Prithivi = "area between Himavat and the sea"; Rajendra I's title *Gangaikonda* (Ganga conquest)

7 How Were Empires Administered?

🔥 Kauṭilya's Saptāṁga — 7 limbs of state	
1 King (swāmi)	sovereign head
2 Ministers (mantrī/amātya)	council of ministers
3 Territory (janapada)	land + population
4 Forts (durga)	fortified towns
5 Treasury (kośha)	kingdom's wealth
6 Army (daṇḍa)	defence, law & order
7 Allies (mitra)	friendly states

State = organic whole of 7; "one wheel does not move the carriage." **Mantri-pariṣhad:** treasurer, chief tax collector, legal advisor, commander — an Aśhokan inscription shows it decided independently in the emperor's absence 📌

Level	North	South
Provinces	bhukti	maṇḍala(m)
Divisions	viṣhaya / bhoga	koṭṭam / valanāḍu
Districts	adhiṣhṭhāna / paṭṭana	nāḍu
Village groups	vithi (→ tahsīl)	paṭṭalā / kūṛram

Village = smallest unit everywhere; Satavāhanas: āhāras + amātyas, grāmika headman; pradeśhikas = district governors; c. 300–800 CE = decentralisation for convenience

Empire	Period	Key features 📌
Guptas	320–550 CE	mantri = head of civil admin; **NEW post — sāndhivigrahika** (minister of peace & war); kumārāmātyas = local admins; **Damodarpur plates** (Kumāragupta I): district office of 5 — officer, banker, caravan trader, artisan, revenue chief
Pallavas	c. 275–897 CE	Central monarchy + decentralised local govt; **Brahmadeya** tax-free grants; village assemblies with **variyams** (irrigation, gardens, temples)
Chālukyas	543–753 CE	**Agrahārams** to Brahmin settlements; Aihole & Badami → centres of learning
Gurjara-Pratihāras	730–1036 CE	Capital **Kannauj** (coveted); **tri-partite struggle** (Pratihāras–Pālas–Rāṣhṭrakūṭas); self-reliant villages
Imperial Cholas	9th–11th c CE	maṇḍalam → valanāḍu → nāḍu → **Ur**; assemblies settled disputes, collected revenue, managed land/irrigation/roads/records — independent & self-reliant

🔥 UTTARAMERUR INSCRIPTION (case study)

Parantaka I, 10th c CE, Vaikuṇṭha Perumal Temple (Kanchipuram dist., TN).
Kudavolai ("ballot pot"): names on palm leaves → pot → a young child drew leaves publicly → village assembly + committees (variyams: tank, justice, tax).
Candidates needed "honest earnings" + purity of mind — ethics in governance 📌

🔥 JUNAGADH ROCK INSCRIPTION (case study)

One rock (Girnar, Gujarat) — 3 rulers, ~700 years: **Aśhoka** (Prakrit, Dhamma) + **Rudradaman I** (Sanskrit; repaired Sudarshana Lake) + **Skandagupta** (restored the lake).
Significance: one site preserves Maurya + Śhaka + Gupta records — admin, public works, political history 📌

8 Ethics — Foundation of Law & Life

- Earliest texts discussed reality, right conduct, origin of universe; **Bhagavad Gītā**: knowledge, faith, action, virtue, ethical life
- **Samatva:** all bodies = same matter; all consciousness = one supreme consciousness; Vedas call it **satya** (true) & **ṛita** (right) — "the invisible origin of all things"; epics critique discrimination — good ruler "works for the welfare of all beings"
- **Ṛita** (Ṛig Veda) = all-pervading cosmic order — harmony & balance in nature & society ⭐
- **Dharma ≠ religion** 🔥 — duty, obligation, righteousness, moral conduct; from root *dhri* (also root of *dharati*, the earth); Bhishma: "that which upholds beings" (iron sinks, wood floats); **dhamma** = Pali form
- Politics–ethics link: Aśhoka's dhamma (non-violence, compassion); Uttaramerur's honesty; Kāmandaka's *Nītisāra* + Bāṇabhaṭṭa's *Kādambarī* (one of the world's first novels) 📌

9 Social Structure — Varṇa, Jāti & Family

Varṇa	Expected roles
Brāhmaṇas	Study & teach Vedas; officiate yajñas; give & receive dāna
Rajanya (Kṣhatriyas)	Warfare, protection, justice; + scriptures, yajñas, social order
Vaiśhyas	Economy — agriculture, pastoralism, trade; + rituals, charity
Śhūdras	Assist other varṇas; in practice also farming, herding, trade, crafts

- Earliest reference = **Puruṣhasūkta, Book 10, Ṛig Veda** 🔥; early Vedic identity NOT birth-fixed — shaped by ethnicity, region, gotra, language & **occupation** (flexible, mobile)
- Evidence: **Ṛig Veda 9.112.3** — "I am a poet, my father a physician, my mother a grinder of corn" 📌; Buddhist *Sutta Nipāta*: "No brāhmaṇa by birth... only by deeds"
- Varṇa = system of values: knowledge (highest) → political power → wealth
- **Jāti emerged** ⚠️ by (1) intermarriage among varṇas, (2) migrating communities turning endogamous, (3) territorial differences — varṇas fixed at 4, jātis unlimited
- **Mobility** ⭐**:** rulers from diverse backgrounds (Nandas, Mauryas, Shungas, Satavāhanas, Vākāṭakas, Guptas, Puṣhyabhūtis); **Mandsaur inscription 473 CE** — silk-weavers' guild migrated Lata (Gujarat) → Dashapura (MP), took up archery & astrology; **Karitalai plates** (Jayanātha, late 5th c) — brāhmaṇas as land managers; **Tolkappiyam** (Sangam): Arasar (kings), Vanigar (traders), Vellāḷar (farmers), Antanar (brāhmaṇas) — occupation-based, fluid 📌; Pattinappalai = trade-oriented society organised by occupation, not rigid varṇa
- **Family structure:** kula (family) → grāma (village) → viśha (viśhapati) → jana (rājā protector); **gotra** = patrilineal lineage from a sage — regulated marriage (patrilineal = through male line; endogamy = marrying within group)
- **ṣhoḍaśha-saṁskāras** = 16 rites of passage (birth → initiation → studies → marriage → death rites...); **4 āśhramas:** brahmacharya → gṛihastha → vānaprastha → saṁnyāsa; **4 puruṣhārthas** 🔥**:** dharma, artha, kāma, mokṣha (artha desirable only when guided by dharma)

- Vedic women: **high, respectful position** 🔥 — scholarly learning, rituals with men, chariot races, attended sabhā
- Women sages of Ṛig Veda (hymns attributed): **Apālā, Viśhvavārā, Ghoṣhā, Lopāmudrā**; goddesses Uṣhas (dawn), Aditi (mother of gods)
- **Manu-Smṛiti 3.56:** "Where women are honoured, there the gods rejoice; where not honoured, all sacred rites prove fruitless" 📌 (quote)
- Position later fluctuated/declined — but women kept contributing to household, agriculture, crafts, religion; post-Maurya **votive inscriptions** list women as donors
- **Prabhāvatī Gupta** (daughter of Chandragupta II) ruled as **regent** of Vākāṭaka kingdom, issued land grants in her own name ⭐
- Sangam: agrarian tasks, spinning, fishing, salt, garlands; poetesses **Avvaiyar** & Vennikuyattiyar (potter); Chola: **Sembiyan Mahādevī** — temple building

11 Religious Life & Emergence of Bhakti

- Vedic pantheon: **no rigid hierarchy** — different deities supreme in different hymns, each linked to nature; worship via prayers & yajñas; continuity today = **Chhath & Makar Sankranti** (nature = sacred, not merely a resource)
- Mid-1st millennium BCE **renunciants** 📌: parivrājaka (wanderer), bhikṣhu (alms), śhramaṇa (striver) — Buddha & Mahāvīra = influential thinkers; roots already in vānaprastha/saṁnyāsa
- Tradition evolved to Viṣhṇu, Śhiva, Śhakti → **Bhakti = direct connection with god, no elaborate rituals, open to ALL classes & genders** 🔥
- **Āḻvārs** (12, Viṣhṇu) + **Nāyanmārs** (63, Śhiva) — Tamil, 6th century → huge body of Tamil Bhakti literature

12 The Quest for Knowledge — Education

- Education = integral, holistic part of life — truth, patience, humility, purity (sattvaśhuddhi), unity of life & nature; **gurukula**: sacred guru-śhiṣhya paramparā, "from darkness of ignorance to light of knowledge"
- Subjects: Vedas + grammar, logic, philosophy, ethics, maths, science, medicine, astronomy + arts (music, dance, painting), archery, yoga — preparation for life, not just career

17 💡 Hinglish Me Samjho — difficult concepts, ek line mein

Society vs State: society = log + customs (riwaaj); state = power + laws (likha-hua system).
Jana → Janapada → Mahājanapada: pehle identity khoon se ("Sharma family") → phir zameen se ("Delhi ke") → phir bade states ("India ke"). Vajji jaise = republic, ek raja nahi.
Chakravarti samrāj: Himalayas se samundar tak poore subcontinent ka "universal ruler" ideal — aśhvamedha ya north-south conquest se message: "hum poore Bhāratavarṣha ke hain."
Dharma vs religion: dharma = duty + righteousness (student ka padhna, raja ki raksha) — "jo sabko sambhale wahi dharma" (Bhishma). Pali version = dhamma.
Varṇa vs Jāti: varṇa = 4 broad branches; jāti = unlimited sub-groups (lohar, sunar...) — time ke saath badhti gayi.
Village assemblies: Chola gaon khud tax, irrigation, roads, justice sambhaalte — jaise aaj Panchayati Raj. Yahi decentralisation hai.
Kudavolai: 1000 saal pehle lottery-style voting — palm-leaf naam, matke mein, bachha public mein nikaalta tha. Ballot box ka purana version!
Guild = bank: śhreṇī mein deposit + fixed interest (Nashik) — quality control + price fixing + court + banking, sab ek institution mein.
Bhakti: seedha dil se connection — na priests, na bade rituals; class/gender koi barrier nahi.
